13 October 1981

NOTE FOR: DD/Pers/SP

SUBJECT : Item for your "4:00"

Construction work started in the Fitness Room area on 26 May 1981, and since that time we have been running special hours. On Friday I was advised by the Office of Logistics that the construction work has now been completed, there is going to be a walk-through with the contractor today, and we can return to normal hours. We will shoot for the earliest date that we possibly can but no later than 1 November 1981.
